better meetings and events

## **Instead of a tent, shrink-wrap shade**

By Kristi Casey Sanders

Fast Wrap, the nation's only mobile shrink-wrapping franchise, offers event planners an alternative to typical tents and canopies. Called "Same Day Shade," they are recyclable tents that can be customized by color, size and shape, are weather-resistant, and cost an average of 25 percent less than traditional tents and canopies. Post-event, Same Day Shade is 100 percent recyclable, thanks to the company's re-bag program. They also can be customized with zippers, windows and doors. Two workers can construct Same Day Shades on-site in about an hour, take them down and plan shipping.
