GREYSTONE CABINETRY

Rob and Misty Estrada felt like pioneers when they packed up their children and headed to Texas from Indiana a two and a half years ago. Despite their affection for the midwest and their extensive family roots in an area not too far from Chicago, a spirit of adventure and a desire to escape the endless, frigid, snowy Indiana winters inspired them to head west. And here they are...new Texans! They are huge fans of the Texas Hill Country and have slipped seamlessly into the fabric of life in Lake Travis, assisted by their love of sports. Rob has coached both football and baseball for three seasons in LTYA leagues, and their involvement has led to many new friends and great times (and, hopefully, as Rob notes, not too many sports enemies!). The Estradas have owned Greystone Farm Custom Cabinetry 10 years and take great pride in the high quality, beautiful custom cabinetry they create. They enjoy working on both whole house, new construction custom jobs and also renovations and additions. In addition to cabinets, they specialize in custom entertainment centers, unique dining room tables, hutches and built-in beds. "We go the distance," says Rob. "If a door or drawer needs adjusting a year later, I'm here for you."

FAST WRAP USA OFFERS AUSTIN AFFORDABLE ASSET PROTECTION

Meg and Rob Arnold are no strangers to Austin, having lived here when Meg was a Dell employee. They are excited to be back and even more excited to debut their new business, *FAST WRAP USA*, in Austin. *FAST WRAP* is the only national franchiser of shrink-wrapping services, bringing wrapping directly to the customer. The covering is fire-retardant, flame-resistant and "shrinks to fit," forming a powerful seal that protects watercraft, RVs, equipment, materials and structures from dirt, insects and animals, and the effect of weather. All materials used in this environmentally conscious business are recyclable, anti-microbial and resistant to allergens, mold and mildew. In addition, for projects precarious to the environment, such as asbestos removal, *FAST WRAP* prevents toxic substances from penetrating the atmosphere. The Arnolds will also offer a "Same Day Shade" component that provides clean, 100% recyclable, single-use shelters for events at a 25-30% discount compared to tent rentals. These special event tents can be customized for all needs and set up the same day, usually in a matter of hours. Welcome home, Meg and Rob!

BALANCE YOGA

The January opening of *Balance Yoga*, Lakeway's first yoga studio, brings Nani and Bart Bacon back to Texas. Nani was born and raised in Friendswood, TX, just south of Houston, and she met Bart Bacon of Denver, CO, when they both attended Sam Houston State University at Huntsville. The couple has lived in Denver where Bart started Bacon Design, a graphic design business handling print media, web design, illustration and fine art. In 2001 Nani started her practice of yoga and quickly developed a level of expertise and certification in four styles of yoga that led Core Power Yoga in Denver to offer her a position as an instructor. Subsequently she managed two of Core Power Yoga south Denver studios and operated their retail programs as well. Nani's following and reputation grew, and the Denver Post named her one of Denver's foremost fitness leaders.

Nani's mother and her sister and brother-in-law, Leilani and Joe Connors live in Lakeway so the Bacons have spent a lot of time here over the years. The Bacon's two children, Zoe (13) and Reid (9) are looking

forward to being near this part of their family. Leilani Connors owns and operates Achieve Manual Physical Therapy in the Lakeway Plaza off Hwy 620, and now the two sisters will own businesses less than a mile apart!

Balance Yoga will offer classes in four different disciplines, including hot yoga, hot power fusion and power yoga. Classes will be open to all experience levels, although some classes will be structured more specifically toward the advanced or beginning student. We welcome Bart, Nani, Zoe and Reid!
